

# SpeediClean™ Palmyra Bristle Long-Handle Grid Scrubber

**All-natural palmyra bristles are durable and heat resistant, and ensure that no metal will ever end up in your food.**

## SpeediClean™ Palmyra Bristle Long-Handle Grid Scrubber

If you use a traditional metal brush to clean your cooking grids, the metal bristles can easily come loose and stick on the grid. The next time you grill, those stray metal bristles may adhere to food and be accidentally ingested.

Big Green Egg's all-natural Palmyra Grill Brushes feature durable palm bristle pads that easily – and safely – clean even the messiest cooking grids.

- Removable, replaceable scrubber head. Includes one replacement scrubber pad.
- The long-handle design keeps hands safely away from the heat.
- Comfortable, ergonomically-designed handle.
- Stainless-steel grill scraper removes tough, baked-on food.
