Cast Aluminum – Powder Coated + Specially Treated for High Salinity Environments • Tilt top

Trail Bar Height 30 **NOROCK** MADE IN CHINA
See Table and Base Fit Guide Pg.56

The Trail self-stabilizing table base exemplifies modern simplicity. The linear, clean design and concealed components complement a robust construction for use in any setting.
Zinc plated powder coated steel.

Say goodbye to wobbly tables!
NOROCK's award-winning bases use a simple mechanical system with four pivoting legs that are interconnected in such a way that they must reach an average weight loading on all four feet.
When a table is placed on an uneven surface the feet will move until all four feet reach a state of equilibrium or more simply, a state of stability.
